This course will go beyond the box scores and the statistics of the sporting world and instead delve into the issues surrounding sport in society. Some of these issues include: race, gender, education, youth in sport, religion, homophobia, mass media, violence, sports and social mobility, deviance in sport, history, and politics. While many may be surprised that these issues exist in the world of sports, this class will debate whether sport is a reflection of society. We will also attempt to answer the more general question of, what is the nature and history of sport?
