<tr>
<td><strong>Course Authors:</strong></td>
<td>Tony Tromba, Frank Bäuerle</td>
</tr>
<tr>
<td><strong>Course Hosts:</strong></td>
<td>UCSC, UC Online</td>
</tr>
<tr>
<td><strong>Course Designer:</strong></td>
<td>Alan Roper</td>
</tr>
<tr>
<td><strong>Instructors:</strong></td>
<td>Frank Bäuerle &amp; Tony Tromba</td>
</tr>
</tbody>
</table>
Course Learning Objectives

1. Master the differential calculus of several variables at a high level.

2. Topics to be mastered are the nature of the derivative as a matrix, vectors, vector fields, applications to physics and the theory of extrema including Lagrange Multipliers.

Office Hours (OH)

Check the office hour page in the Support Options module. The instructor and TAs hold weekly office hours both in-person and online Zoom, our webinar software. For details check the office hour page in the Support Options module.
E-Textbook and Homework System

The textbook (a customized version of *Calculus, Early Transcendentals, 2nd ed*, by UCLA Professor Jon Rogawski) is located on a web-based platform called Launchpad and the homework assignments can be found there also. **For details on how to access Launchpad, go to the Quick Start Guide in the Technical Setup module.**

Grading Policy

The grade in this class is comprised of:

<table>
<thead>
<tr>
<th></th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>On-line Homework (in LaunchPad)</td>
<td>15%</td>
</tr>
<tr>
<td>On-line Quizzes (in LaunchPad)</td>
<td>10%</td>
</tr>
<tr>
<td>Reading Assignments - Progress Check Questions (in LaunchPad)</td>
<td>5%</td>
</tr>
<tr>
<td>Proctored Midterm (in person or online)</td>
<td>30%</td>
</tr>
<tr>
<td>Comprehensive Final (in person or online)</td>
<td>40%</td>
</tr>
</tbody>
</table>
Some detailed explanation for the grading is in order:

- **Homework:** All homework assignments are on LaunchPad and are due on the dates noted below in the weekly schedule. You have an unlimited number of attempts on all homework questions and most questions provide feedback or hints if you answer incorrectly.

- **On-Line Quizzes:** On-line quizzes are already scheduled (see below for dates) but will be announced also through Canvas announcements and email. On-line quizzes are found in LaunchPad. Unlike regular on-line homework assignments, they are limited in time and do not give hints or feedback for incorrect answers. There will be partial credit (where appropriate) on on-line quizzes. Your TA and instructors will check your answers and may assign partial credit after the computer score has been calculated. That is, your final score on a quiz or other on-line test may be higher than what you see after you submit your test to Launchpad.

- **Reading Assignments:** No, we are not watching you when you read, so your reading score is determined by your performance on the progress check questions in the sections in LaunchPad. You will encounter them regularly when you read the assigned sections in your E-book. All readings are due on the dates noted below in the weekly schedule.

- **Discussion on Piazza and Study Group Participation:** This is a tricky one. Research shows that student success in on-line learning increases with active participation in discussion groups. On the other hand, we understand that not everybody needs help nor may want to collaborate with others. Now if you don't need help, you can still help others, and the fact is that explaining math to others helps you understand the math more deeply, so it is to your benefit also. **Active participation on Piazza is strongly encouraged and can contribute to a grade bump for the final grade.**

- **Final Exam:** The comprehensive final exam is worth 40% of your grade. In addition, students need
to have a sufficiently high score on the final exam to pass the class. Similarly, an exceptionally high score on the final exam can lead to a grade bump.

- **Curve**: We do not curve individual tests, but there may be a curve for the class in the sense that grade ranges that lead to certain grades are adjusted based on overall results.
- **Extensions**: There are **NO EXTENSIONS** without justification such as a doctor’s note.

**Midterm and Final Exams**

Please go to our **Exam Information Page** in the Course Overview and Policies module for details on Midterm and Final dates, times, locations and requirements. Exams will be offered on-campus and online (a fee applies for the proctoring service.)

**Important**: There are **no make-up exams** given. If you miss the midterm, your score on the final will count for both the midterm and the final. **If you miss the final exam, you will fail the class.**

Students often fail to understand that the course ends with the final exam which by its very name is **final**. Grades cannot be adjusted afterwards for extra work or other reasons unrelated to the actual course.

**Tentative Weekly Schedule**

<table>
<thead>
<tr>

</table>

(you have 90 minutes to complete)

- Wk 4 Homework and Reading due Sun 7/23 @ 11:59pm
- Final Exam (on-campus) Fri 7/28, Time 1-4pm, Location Engineering Auditorium 101
- Final Exam (online) Fri 7/28 by appointment with Proctor U, 1Time: 1-4pm
- Wk 5 Homework and Reading due
Midterm and Final Exams

Logistics: See the Exam Information page in the Get Started module for information concerning the midterm and final exam dates, times, locations and requirements. Exams are offered on-campus and online.

Content and Review materials: See the Midterm Practice Materials module for information about the test as well as a number of practice materials.
