HAVC 141P: Networks and Natures: Art, Technology and the Nonhuman

Summer Session 2, 2022
(July 25 to August 26)
Mode of Instruction: Canvas (asynchronous)
Instructor: Matthew Tedford, mtedford@ucsc.edu
Office Hours: Thursday, 9am to 11am (or by appointment)
Schedule: https://calendly.com/mtedford/officehours

Overview
This class explores relationships between art, technology, and nature. We will investigate the ways in which the development of various modern technologies has impacted the natural world and its organisms, as well as our artistic and visual representations of those realities and lives. Of special importance will be the question of how the confluence of technology and nature figures in art and visual culture. After an initial overview of keywords and major historical shifts, we will move to a series of exploratory investigations, starting with topics emerging out of nature-oriented philosophy and art in the mid-twentieth century. We will then follow thinking around art, nature, and technology from the 1980s and 1990s through to the present, addressing topics like land art; images of wilderness; nature, gender and cinema; race and colonization; the visualization of the Anthropocene; and new prospects for multi-species thriving.

Learning Objectives
The following goals will be modeled in lecture, while the discussions and assignments will support students as they apply what they learn:

- Students will understand how the culturally constructed categories of technology and nature, and their visual production, have informed and shaped one another.

- Students will learn how artists and filmmakers have utilized technology and emerging media to engage with nature, environmentalism, and the nonhuman.

- Students will understand how various theorizations of technology and nature differently frame the relationship between media, viewers, and the nonhuman.

- Students will learn how discourses around technology, nature, the human, and the nonhuman intersect with gender, race, economy, and colonialism.

Course Format
The class comprises 10 thematic modules, with two modules scheduled per week. On the days scheduled for each module, I will release a lecture via Canvas on the assigned readings, visual material, and other content.

Assignments
Successful assignments will engage with visual analysis, close and critical reading of visual artifacts and texts, research, and connections across readings and visual materials. Students are
encouraged to bring in outside artworks, readings, and other references but should also
demonstrate engagement with the course materials that serve as the basis of a shared classroom
experience.

**Discussion (30% of overall grade):** Engagement among us all is essential in the digital
environment, and we will use Canvas to share our thoughts and reactions to the course material. I
ask students to make one discussion post for each module and respond to two peer posts per
module. I will provide a prompt or multiple prompts to ground the conversation. These posts can
take the form of a written response, video or audio files, or other creative responses. Whatever
format you choose, please end all posts with a question for your classmates to respond to (this is
not necessary for your peer responses). These questions will encourage a richer discussion and
keep the conversation lively. In addition to (but not in place of) the above, you can also use the
discussion threads to pose other questions you had about the material, bring in outside media or
readings, or just throw out random thoughts you’ve had during the module.

**Quiz (15% of overall grade):** A short Canvas quiz covering the first two modules of the course.

**Small Writing Assignment (25% of overall grade):** A 3-4 page writing assignment reflecting
on one of the most recent modules due via Canvas on Monday, August 14. Students will be
asked to conduct visual analysis and engage with the themes of the modules’ readings. Formal
writing and citation conventions are expected in this assignment.

**Final Project (30% of overall grade):** In place of a final exam, a substantial, rigorous, and
well-defended final project is due via Canvas Friday, August 26. Final projects will demonstrate
an understanding of key debates on the intersection of visual culture, technology, and the
nonhuman. The final project can take a more conventional written form, such as an academic
article or a critical essay of 5-6 pages. It can also take a non-conventional or primarily non-
written form, such as a short film, an artwork, a grant proposal, or an action plan. Any non-
conventional projects will need to include a citation-rich written explanation/justification. Be
sure to consult with me if you are interested in doing a non-conventional final project. A project
proposal will be due on Thursday, August 11, and an outline or storyboard will be due on
Thursday, August 18.

**Late Assignments**
Given the fast-paced nature of Summer Session, it is imperative that students stay on top of all
readings and assignments. Additionally, it is crucial to complete all discussion posts and
responses on time to foster an engaging class experience. Late work will be subject to a lower
grade. Recognizing that unanticipated situations arise that may prevent a student from
completing an assignment on time, please contact me as soon as possible if circumstances
prevent you from turning in an assignment on time. Discussion posts and responses cannot be
submitted late.

**Course Materials**
The Canvas page for our course has been set up so that all materials (readings, videos, and
lectures) are viewable within individual modules on the “Home” page. Modules aren’t made
public until it is their time in the course. However, readings are available ahead of time through
the “Files” tab so you can read texts before the lectures are released. All required viewing material is also available ahead of time through links on this syllabus.

## Course Schedule

**INFORMATION AND RESOURCES**

**Course Workload**

UC Senate Regulation 760 specifies that 1 academic unit corresponds to 6 hours of work per week during Summer Session. Therefore, as a 5-unit course, this class will require 30 hours of work per week. You can anticipate spending about 6 hours a week on lectures and class discussions and 24 hours on the course’s other elements. These hours may be broken down further as approximately 12 hours per week reading, engaging with assigned artworks, and taking notes; and 12 hours working on major assignments.

**Program Learning Outcomes**

The History of Art and Visual Culture department has identified four program learning outcomes (PLOs) for its B.A. program. This class fulfills these PLOs:

- **PLO 1: Breadth of Cultural Knowledge**: Students will be able to demonstrate an appreciation for, and foundation in, visual studies grounded in a range of historical, social, cultural, and ideological perspectives.
- **PLO 2: Critical Thinking**: Students will be able to apply critical thinking skills that will enable them to analyze and solve problems through observation, experience, reflection, interpretation, analysis, evaluation, and/or explanation of visual, material, and historical cultural forms and values. Students will demonstrate critical thinking skills through oral and/or written communication.
- **PLO 3: Research Proficiency**: Students will be able to formulate research questions that expand their knowledge of art and visual culture. Students will be able to apply research methods to answer these questions by consulting the current literature and developing independent results through archival, library, or field research.
- **PLO 4: Written Communication**: Students will be able to present clear visual and historical analysis and interpretation in writing. Students will be able to demonstrate standard writing conventions in visual studies appropriate to purpose and context.
Accessibility
UC Santa Cruz is committed to creating an academic environment that supports its diverse student body. If you are a student with a disability who requires accommodations to achieve equal access in this course, please submit your Accommodation Authorization Letter from the Disability Resource Center (DRC) to me by email, preferably within the first week of the course. I would also like us to discuss ways we can ensure your full participation in the course. I encourage all students who may benefit from learning more about DRC services to contact DRC by phone at 831-459-2089 or by email at drc@ucsc.edu.

Academic Integrity
All members of the UCSC community benefit from an environment of trust, honesty, fairness, respect, and responsibility. You are expected to present your own work and acknowledge the work of others in order to preserve the integrity of scholarship.

Academic integrity includes:

- Following exam rules
- Using only permitted materials during an exam
- Viewing exam materials only when permitted by your instructor
- Keeping what you know about an exam to yourself
- Incorporating proper citation of all sources of information
- Submitting your own original work

Academic misconduct includes, but is not limited to, the following:

- Disclosing exam content during or after you have taken an exam
- Accessing exam materials without permission
- Copying/purchasing any material from another student, or from another source, that is submitted for grading as your own
- Plagiarism, including use of Internet material without proper citation
- Using cell phones or other electronics to obtain outside information during an exam without explicit permission from the instructor
- Submitting your own work in one class that was completed for another class (self-plagiarism) without prior permission from the instructor.

Violations of the Academic Integrity policy can result in dismissal from the university and a permanent notation on a student’s transcript. For the full policy and disciplinary procedures on academic dishonesty, students and instructors should refer to the Academic Misconduct page at the Division of Undergraduate Education.

Title XI and CARE
UC Santa Cruz is committed to providing a safe learning environment that is free of all forms of gender discrimination and sexual harassment, which are explicitly prohibited under Title IX. If you have experienced any form of sexual harassment, sexual assault, domestic violence, dating violence, or stalking, know that you are not alone. The Title IX Office, the Campus Advocacy, Resources & Education (CARE) office, and Counseling & Psychological Services (CAPS) are
all resources that you can rely on for support.

Please be aware that if you tell me about a situation involving Title IX misconduct, I am required to share this information with the Title IX Coordinator. This reporting responsibility also applies to course TAs and tutors (as well to all UCSC employees who are not designated as “confidential” employees, which is a special designation granted to counselors and CARE advocates). Although I have to make that notification, you will control how your case will be handled, including whether or not you wish to pursue a formal complaint. The goal is to make sure that you are aware of the range of options available to you and that you have access to the resources you need.

Confidential resources are available through CARE. Confidentiality means CARE advocates will not share any information with Title IX, the police, parents, or anyone else without explicit permission. CARE advocates are trained to support you in understanding your rights and options, accessing health and counseling services, providing academic and housing accommodations, helping with legal protective orders, and more. You can contact CARE at (831) 502-2273 or care@ucsc.edu.

In addition to CARE, these resources are available to you:

- If you need help figuring out what resources you or someone else might need, visit the Sexual Violence Prevention & Response (SAFE) website, which provides information and resources for different situations.
- Counseling & Psychological Services (CAPS) can provide confidential counseling support. Call them at (831) 459-2628.
- You can also report gender discrimination and sexual harassment and violence directly to the University’s Title IX Office, by calling (831) 459-2462 or by using their online reporting tool.
- Reports to law enforcement can be made to the UC Police Department, (831) 459-2231 ext. 1.
- For emergencies, call 911.

**Religious Accommodations**

UC Santa Cruz welcomes diversity of religious beliefs and practices, recognizing the contributions differing experiences and viewpoints can bring to the community. There may be times when an academic requirement conflicts with religious observances and practices. If that happens, students may request the reasonable accommodation for religious practices. The instructor will review the situation in an effort to provide a reasonable accommodation without penalty. You should first discuss the conflict and your requested accommodation with your instructor early in the term. You or your instructor may also seek assistance from the Dean of Students office.

**Important Student Services**

**Counseling and Psychological Services**

Many students at UCSC face personal challenges or have psychological needs that may interfere with their academic progress, social development, or emotional wellbeing. The university offers a variety of confidential services to help you through difficult times, including individual and
group counseling, crisis intervention, consultations, online chats, and mental health screenings. These services are provided by staff who welcome all students and embrace a philosophy respectful of clients’ cultural and religious backgrounds, and sensitive to differences in race, ability, gender identity and sexual orientation.

**Student Success and Engagement Hub**
The Division of Student Success provides campus-wide coordination and leadership for student success programs and activities across departments, divisions, the colleges, and administrative units.

**Tutoring** and Learning Support
At Learning Support Services (LSS), undergraduate students build a strong foundation for success and cultivate a sense of belonging in our Community of Learners. LSS partners with faculty and staff to advance educational equity by designing inclusive learning environments in Modified Supplemental Instruction, Small Group Tutoring, and Writing Support. When students fully engage in our programs, they gain transformative experiences that empower them at the university and beyond.

**Slug Support Program**
College can be a challenging time for students and during times of stress it is not always easy to find the help you need. Slug Support can give help with everything from basic needs (housing, food, or financial insecurity) to getting the technology you need during remote instruction. To get started with SLUG Support, please contact the Dean of Students Office at 831-459-4446 or you may send us an email at deanofstudents@ucsc.edu.

**Slug Help/Technology**
The ITS Support Center is your single point of contact for all issues, problems or questions related to technology services and computing at UC Santa Cruz. To get technological help, simply email help@ucsc.edu.

**On-Campus Emergency Contacts**
Slug Help/Emergency Services. For all other help and support, including the health center and emergency services, start here. Always dial 9-1-1 in the case of an emergency.
