High School Summer ONLINE is 100% online. You will not have to visit campus to complete an online course. You need access to a computer and a reliable internet connection for the duration of the course. While online courses allow flexibility in their schedules, they are also highly structured with clear expectations and due dates. UCSC online courses are just like their face-to-face equivalents. You are challenged, encouraged to think deeply, and expected to perform university-level work. We encourage you to call or email our office at any point with questions or concerns.

**GETTING STARTED**
